

I would find it most discouraging if all Indiana has worked for to make our lives more pleasant at home be changed. My husband works nights and was constantly bombarded with phone calls. I work 12 hours a day to come home and have to stop what I am doing to answer a phone call that makes me become angray. My 90 year old mother-in-law would get up to answer a call for someone selling something. If I want something, I will call them. If people want to be called, don't put your name on the list. PLEASE LET US HAVE SOME PEACE AT OUR HOME. THERE IS ENOUGH OTHER TURMOIL GOING ON THAT WE DON'T NEED TO ADD TO IT. The only way this law will be passed if the right people are getting paid off. Tell me out of 100 people, who wants to get interrupted from what they are doing to buy a magazine, etc. The people this effects have phones. If they have phones they can make their own calls by looking at the yellow pages....
